

SEA BREEZE

Vol 20 Issue 1

March 2017

Here I set at my computer, in my house that is almost completed from the damage that Hurricane Matthew inflicted on us. I know that there are many in Sea Colony that know how good it feels to be back home and a few that still are not there, we can only hope that you have a speedy recovery and that you get back home before long.

Thanks to our Board, Sea Colony is beginning to return to it's original beauty before the storm. We still have a long way to go though and realize that many of our projects were on hold waiting for permission from the County to move forward. Until you have served on the Board or worked on one of the committees, you can't imagine the hoops that we all have to jump through to complete a project. Although it seems that we are going at a snails pace, we are so much further along in the process of recovery due to the fiscally responsible Boards that we have had in the past and present, than a lot of the communities in our area. For that we are thankful!

Since my last report to you, the Social Committee has sponsored the Thanksgiving Dinner with 88 attendees, the Holiday Party which was a great opportunity for newcomers to meet neighbors and the Tree/Clubhouse Decoration Party. Thanks to the Sea Colony residents, the Season's Gifts for our Security Staff exceeded last year's gift and the Project Share that was headed by Sue Heck helped to accommodate 1330 children in the area. The Super Bowl Party was a great success with 85 attendees and \$250.00 going to the Food Bank from the 50/50 drawing.

We have had some complaints from bike riders that park their bikes on the rack in the parking lot of the Sea Colony Clubhouse. When they return they are not be able to get their bikes out due to golf carts. **PLEASE PEOPLE** be courteous and do not park your golf carts around the bike rack, that is what the designated parking spaces are for.

PRESIDENT'S CORNER

I know some homeowners are upset with the progress of restoration of the common areas in Sea Colony. As you know, we have worked on the major concerns first. Flagler County, as of now, is scheduled to begin the dunes restoration March 1st and Sea Colony will be included in the project. Now that we know where the dunes will be restored, we have started the process to restore the walkovers.

The grass and plantings on the common grounds are a special issue due to irrigation from the lakes. The lakes are being evaluated and all possible options are being investigated. The common areas and plantings will be addressed once we determine the status of the lakes. Whatever is decided will take time, so please bear with us.

Thank you for your patience regarding Bay Park. The county has said they will work with us and has agreed to meet and observe first hand the major concerns that have been expressed by Sea Colony residents.

I will keep you informed as soon as new information becomes available. In the meantime, if you hear rumors please call to substantiate them before spreading them.

Thanks again for your patience!

Leo Blessing

HURRICANE MATTHEW

The hurricane hurls its might around.
Amid the islands of Haiti's grounds,
Causing misery and destruction of human needs,
And eyeing the eastern coast of Florida to proceed.

The mighty action of its wind driven rain,
Causes the oceans water to churn and strain.
Lashing the shore with water soaked forces,
Damaging and destroying many human resources.

Along the shore it roars with glee,
Enjoying its damage to humanity.
Loving the wild life it does bring,
To all land occupants of this earthly thing.

It heads north along the eastern coast shore,
Adding many cruel items to its destructive score.
Oh, if only it would unfold some earthly good,
As our loving creative mighty force could.

Don't fret my friends, for we shall win,
This fight against weathers destructive sins.
Many resources exist to salvage our needs,
And return joy and happiness, oh yes indeed.
